

# BIONIKA

## SPECIAL OFFER

From 01/06 to 15/07 2024

**BIONIKA is offering refreshing discounts again this summer!**

2024  
**06**  
June

# OUR DEAR PARTNER!

**József Hajdú**  
founding owner,  
executive manager

Eight years after the foundation of BIONIKA Medline Ltd., we moved to our current headquarters in Miskolc, where we further expanded our wide range of products. We were the first company in the bastion of heavy industry to produce fine mechanical products. In 1989 we committed ourselves to the production of insertable dental, oral surgery, traumatology and orthopaedic implants. The owners of the company have strong ties to the city, as three of them studied here at the University of Miskolc.

Our constantly renewed, state-of-the-art products require precise, cutting-edge technology. Year after year, we have been awarded grants through successful tenders to keep development and production at the highest level. We are passionate about medical device manufacturing, with a strong focus on the development of dental implants. In addition, the diversity of our business requires us to be involved in other instrument manufacturing. We have 35 years of experience in machining acid-resistant steel and titanium. We are also able to meet the challenges of industry demanding high precision and quality, from medical technology to aerospace manufacturing. Thanks to our state-of-the-art machinery, we can also undertake contract manufacturing on request.

## SLIM STABILE

### Characteristic features of the Slim Implant System

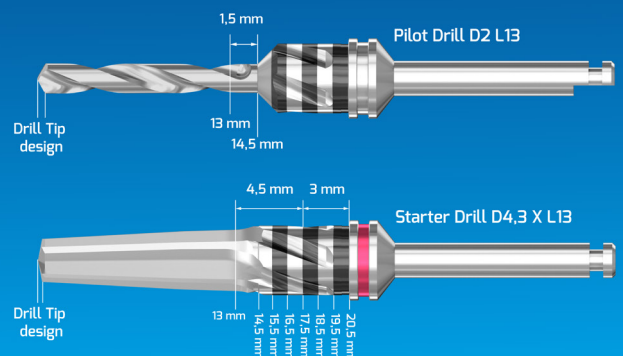

- Radial threaded edge
- Cycloid thread profile
- High thread angle
- High helix
- Stable neck (Ø 2,3)
- Tapered self-compression thread adapted to the natural tooth root
- Thin, pointed, tapered apex

### Slim Stable head designs

With the drills in the Guide System, you can easily create the right size implant site. The wide range of sizes allows the kit to be used for a wide range of applications.

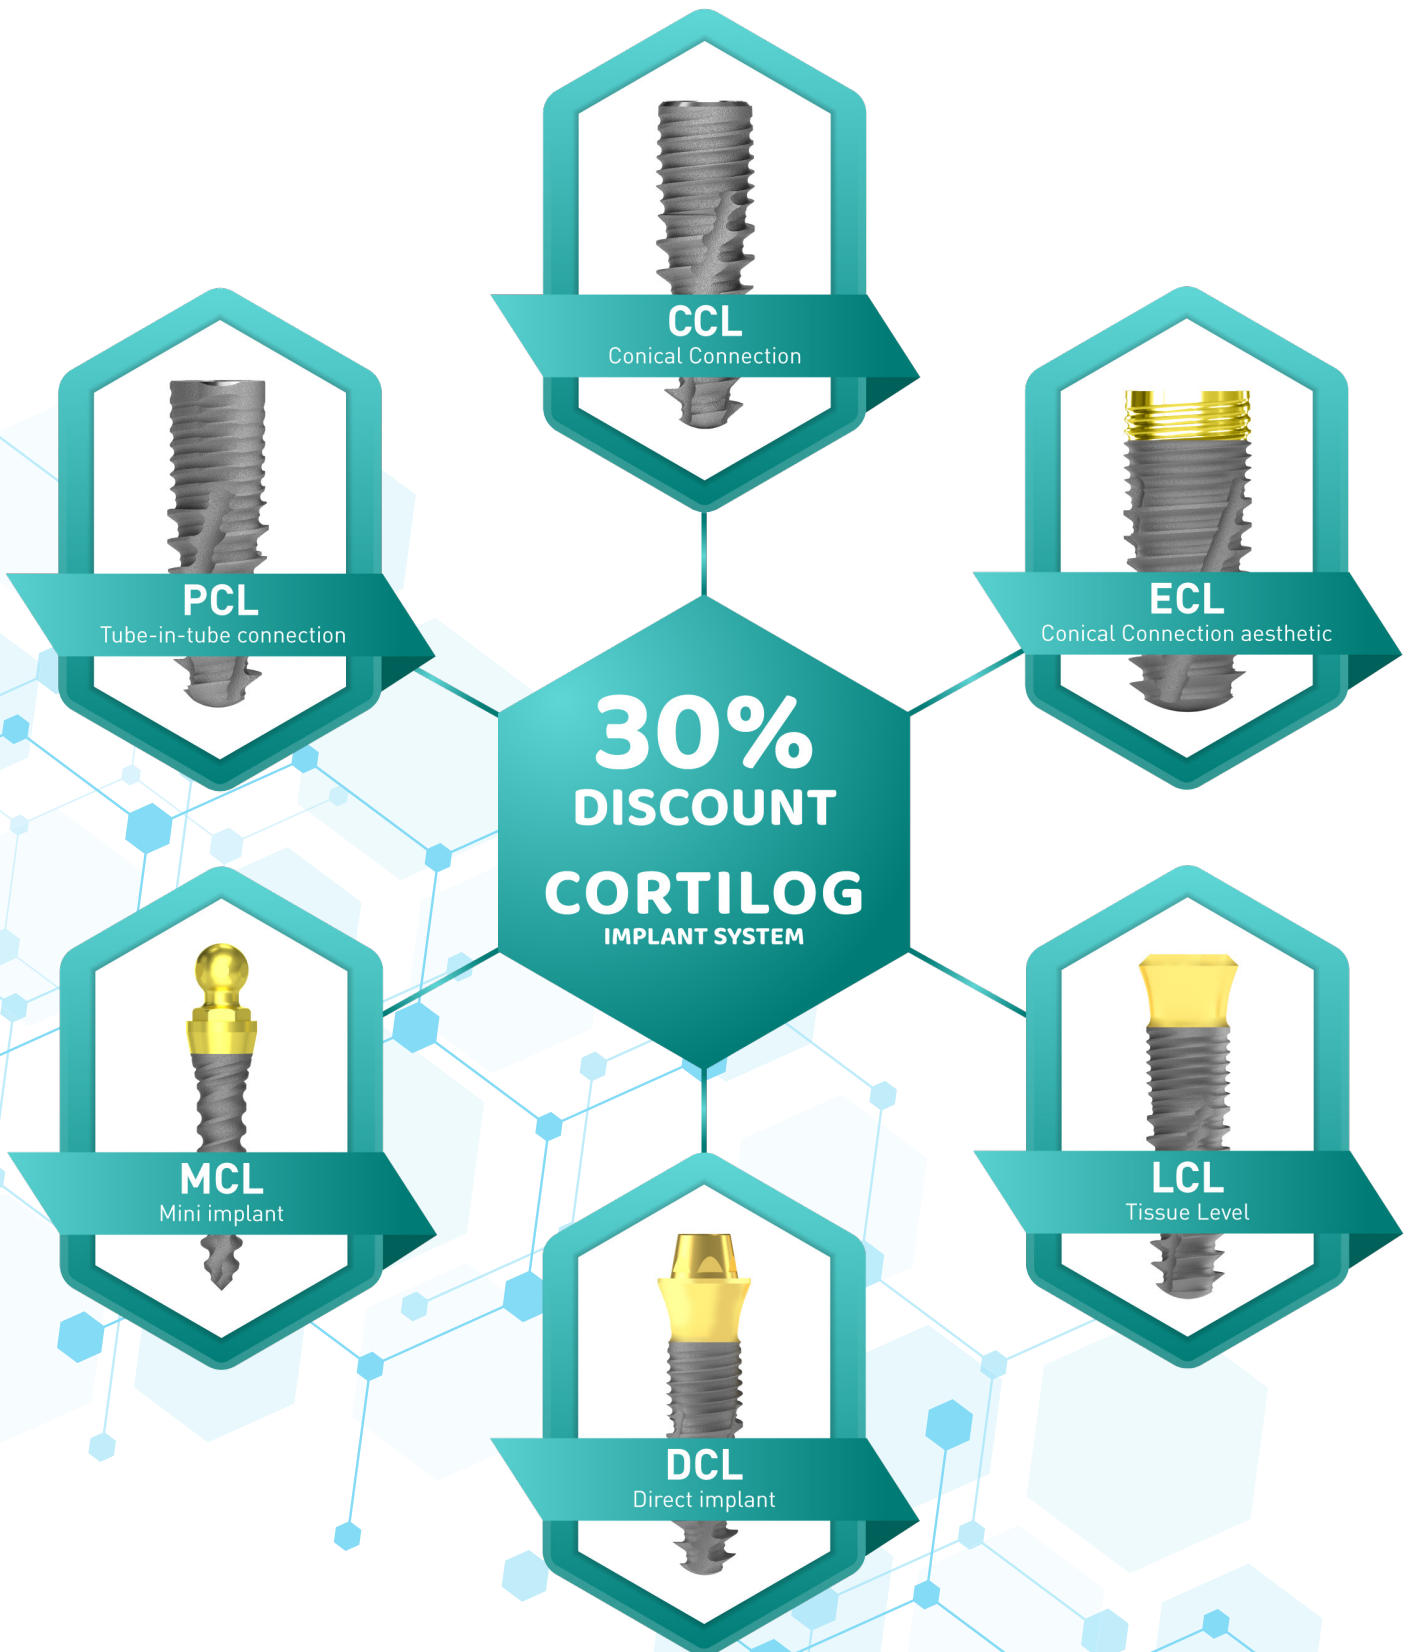

### Sizing of drills

*The size range of the drills varies from implant system to implant system and can be changed by arrangement.*

**The most beautiful summer accessory is the perfect smile!**

**BIONIKA is waiting for your orders all summer long!**

*Our offers in the Special Offer cannot be combined with any other discount.*

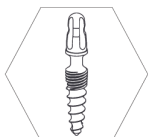

The most beautiful summer accessory is the perfect smile!
